Vision

We exist to solve the world's most difficult problems in information communication and technology (ICT). We bring simplicity to technologies, solutions, and services that connect the world. A company of innovators, we believe that creating simplicity through IT Solution is the highest form of innovation. With the strength of our resolve, we'll champion the evolution of the cloud and once again change the world. Simple is our obsession. Simple is powerful. And simple always starts with IT services.

Our values

At Elrukz Group, we believe that the Information Technology is the single greatest for knowledge, understanding, and human advancement that the world has ever known. The task of delivering a network in the digital transformation era pivots on the creativity and commitment of our people. Our people personify the Elrukz Group, way through these values:

Be Bold. Build Trust. Deliver Excellence
Transform your dream into Reality

Our difference

We focus on understanding our customers' needs so we can dig in and solve the hardest problems they face problems that others can't, or won't, approach. We persevere for solutions that remove complexity and give our customers true advantage over their competition. Whatever the challenge, each and every day our customers set out to build the best, most secure networks for their unique challenges. And we're there to help them succeed. Why Elrukz Group Ltd? Quite simply, because we provide the kind of innovative thinking, performance, automation, and commitment that enable the world's best networks.

Welcome to the Elrukz Group. We bring simplicity to networking with innovations that help you move your business forward. Currently, we are only offering virtual briefing experiences, our goal is to provide you with an experience that is almost identical to what you would encounter with an onsite visit. we will present a customized conversation that addresses your business priorities around some of the biggest challenges facing businesses today: Maximizing the experience for your users through AI-driven insight, automation, and security Delivering applications and

services at cloud scale transforming your infrastructure, operations, and services to increase your agility in the rapidly evolving marketing our briefings, we'll collaborate with you in an exchange of discovery and understanding that will uncover the best approaches and innovative technologies to help you reach your goals. We'll tell you our story, too, sharing lessons that we've learned along the way. Elrukz Group IT team addresses many of the same network challenges that your organization faces. We deploy our own technologies to increase capability and reduce costs; while improving agility, capacity, and security, and developing best practices to share with others. "At Elrukz Group, we're all about fostering new ideas and enabling break through innovations for our customers.

Emmanuel RUKOMEZA - Chief Executive Officer, Elrukz Group Ltd.

Your virtual briefing is a customdesigned, fully supported experience that includes:
Customized agendas focused on your challenges and business goals
Personalized discussions with executive leaders and technology experts
Live demos to help you visualize our solutions
Virtual concierge services to finetune your experience
We're looking forward to designing your customized experience, and in the process,

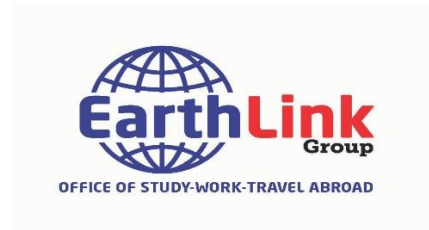

getting to know you and your business goals and challenges. You'll meet our team, too—the Elrukz Group innovators who deliver the strategies, architectures, and solutions that enable our customers to achieve their business imperatives by deploying the best-

performing and most secure networks in the world. Contact us today to find out how you can make a difference for your business.

Our priority is customer satisfaction

We take an individual approach to each project to satisfy any requirements our clients might have and to comply with all regulations in the country where the project is implemented. We pay special attention to keeping with project deadlines and budgets. To provide sufficient quality guarantee of your projects, our company was established 2016 and since then we have been working on making the quality system even more effective. We dispose of high-quality consultants and project managers who are available to the client throughout the project duration. Thanks to a quality pool of project managers and consultants, we are able to satisfy any customer requirements. We would like to hear from you If you were satisfied with the quality of our services, we will appreciate if you recommend us to your partners. If you were not satisfied, let us know. We will be happy for your feedback, both positive and negative.
